KSM313/NE Dual-Voice Ribbon Microphone

Overview

The KSM313 is a premium bi-directional ribbon microphone for world-class audio and performance. The Dual-Voice design features discrete front-and-rear side sonic signatures for use with amplified instruments or in intimate vocal applications. Hand assembled in the USA with custom components and proprietary Roswellite® technology for revolutionary ribbon resilience under extreme conditions.

Features

- Bi-directional polar pattern delivers premier audio with superior off-axis rejection
- True Dual Voicing tuned specifically for user's choice of response - warm and full for amplifiers, or swivel for bright and flattering vocals
- Revolutionary Roswellite® proprietary ribbon material replaces traditional foil ribbons with high tensile strength, toughness and shape memory that provides superior resilience at extreme SPLs
- Custom-sourced components for superior presence, minimized signal loss and maximized output
- 146dB SPL / 30 – 15,000 Hz frequency response ideal for capturing fast transients in vocals, acoustic instruments and concert hall performances
- Legendary Shure quality and superior construction from hand-assembly of machined steel, silver, gold and aluminum materials
- ShureLock® stand mount for secure thread-locked mounting
- Aluminum flight case for storage when not in use
