

**IMPORTANT:** Do not scale this page when printing. Select "actual size" in the printer menu.

Use this template to cut a hole into a table before installing the A310-FM flush mount tray.

1. Print on 8.5 x 11 inch paper, and **measure to verify the scale is correct** before cutting.
2. Cut along the dotted line.
3. Secure the template to the table and carefully cut the hole, using the template as a guide.
